**QUESTION 1**

Fill in the bank: In Office mode, a Security Gateway assigns a remote client to an IP address once\_\_\_\_\_.

- A. the user connects and authenticates
- B. office mode is initiated
- C. the user requests a connection
- D. the user connects

Correct Answer: A

Office Mode enables a Security Gateway to assign a remote client an IP address. The assignment takes place once the user connects and authenticates. The assignment lease is renewed as long as the user is connected.
