**QUESTION 1**

To reduce the costs of maintaining servers with FTP access; your company is using P2P to facilitate sharing of information. Which strategy should your company use to protect the company's sensitive information while capitalizing on the benefits of P2P power?

- A. Limit P2P use to sharing music files.
- B. Restrict employees from using their computers in P2P communications.
- C. Use technologies that will control access and password-protect files.
- D. Restrict P2P use to sharing only with universities and research organizations.

Correct Answer: C

---

**QUESTION 2**

Matthew has embedded a video in his Web page using the HTML5 video format. The video is not rendering properly. He asks Arlene to help determine the problem, so she reviews his code, which appears as follows:

Your browser does not support the HTML5 video element.

What is wrong with this code?

- A. The ogg video format is not supported by HTML5.
- B. One of the video tag instances has not been properly closed.
- C. The browser plug-in information required to view the video is missing.
- D. The second instance of the element should be replaced with the element.

Correct Answer: D

---

**QUESTION 3**

You are creating a style sheet to format the pages on your company's Web site. One section will have a black background with white text. What is the hexadecimal reference you would use to specify the text color for this portion of the Web page?

- A. "white"
- B. #000000
- C. #FFFFFF
- D. "255, 255, 255"

Correct Answer: C

---

**QUESTION 4**

A friend has called you about a possible computer problem because her computer is acting strangely. Sounds play unexpectedly, the monitor turns off suddenly, the hard-drive light flashes constantly, the computer sometimes reboots itself without warning. When you inspect your friend's system, you notice that several ports are open. Which of the following is most likely the cause of these symptoms?

- A. The computer has been infected with a polymorphic virus.
- B. The computer is experiencing a denial-of-service attack.
- C. The computer has been infected with an illicit server.
- D. The computer has been infected by a worm.

Correct Answer: C

---

**QUESTION 5**

Which term describes a compact personal computer that relies on a touch screen for input, generally uses a solid-state drive instead of a traditional hard disk, and relies on wireless or mobile networks for connectivity?

- A. Tablet
- B. Laptop
- C. Netbook
- D. Portable media player

Correct Answer: A
