**QUESTION 1**

A customer requirement is to use the first part (week) of a biweekly time card period for validation purposes. Which option outlines how this could be accomplished?

- A. Create a new rule template using a delivered TER formula. Enable input parameters in the template to define the validation period and set summation period to "Time Card Level." Create rules using the new rule template and assign them using a rule set.
- B. Create a new TER formula and rule templates. Define the validation period within the formula. Enable the summation level selection when defining the rule as an input parameter within the rule templates. Create rules using the new rule templates and assign them using a rule set. Place the "Day Level" rules on Rows 1? for days 1? in the time card period, and the "Time Card Level" Rule in the 8th row. Use the Processing Sequence to order the rules.
- C. Create a new rule template using a delivered TER formula. Enable input parameters in the template to define the validation period and set the summation period to "Day Level." Create rules using the new rule template and assign them using a rule set.
- D. Create a new TER formula and rule template. Define the validation period within the formula. Set the summation period to "Time Card Level" in the rule template and enable the input parameters. Create rules using the new rule template and assign them using a rule set.
