QUESTION 1

You are a project manager working with a cross-functional project team. The project spans multiple years and has 25000 activities owned across these cross-functional teams. The team leads for the functional teams do not want to view activities outside of the ones that they own. They have asked you to find a way for them to only see their activities.

Identify three P6 EPPM features that would help you respond to this requirement.

- A. Create project activity code for teams. Values = team names.
- B. Group and sort by project activity code within the common activity view.
- C. Create filters built on project activity code. Values = team names.
- D. Create a generic resource for each team, and assign to each owned activity.
- E. Create an activity view for each team, filtering on team owned activities.
- F. Group and sort by generic resource within an activity view.

Correct Answer: ACE

Explanation:

Note:

*

Activity codes help to sort, filter, and group activities.

*

If you mainly work in one project, then it can be helpful to filter by project by default.

Startup Filters		
Choose the default filters to start the application. If you choose to view all data the application may take longer to start. These filters can be modified in the individual views.		
	Current project data only	View all data (No Filter)
