**QUESTION 1**

Which two properties files need to be edited before manually registering/unregistering an IBM Sametime 9.0 server component?

- A. SSCHost.properties and productConfig.properties
- B. console.properties and productConfig.properties
- C. productConfig.properties and NodeConfig.properties
- D. sametime.properties and productConfiguration.properties

Correct Answer: B

QUESTION 2

Which must be done on an IBM Domino server running on Microsoft Windows 2008 or later before installing a standalone IBM Sametime Community 9.0 Server?

- A. Enable LDAP.
- B. Disable unused TCP global settings.
- C. Specify "Instant messaging server" for users in the directory.
- D. Set "Is this a Sametime server?" to "Yes" in the Domino Server document.

Correct Answer: B

QUESTION 3

What does the IBM Sametime Video Multipoint Control Unit (MCU) do?

- A. Controls audio and video quality in one-to-one calls
- B. Enables the integration of video with unified telephony technologies
- C. Manages video calls and forwards SIP messages to their destinations
- D. Enables multi-way, audio and video conferences with continuous presence

Correct Answer: D

QUESTION 4

Joe wants to make sure a new set of parameters in the existing managed-settings.xml file are properly pushed down to his clients, avoiding any end-user interaction (apart from enforcing a client restart to apply changes).

What method can be used to achieve this?

- A. Include a reset user parameter to force a configuration reset.
- B. Make sure the lastModDate parameter is updated with a new value.
- C. A new policy document should be created to point to the managed-settings.xml location.
- D. Make sure the lastModDate parameter is updated with a new value and the restartRequired flag is set to "true".

Correct Answer: C

QUESTION 5

Which is a requirement when manually performing the name conversion utility?

- A. Run the command: stusernamechange.cmd.
- B. Run the stnamechange. [sh/bat] file from a command prompt.
- C. Enter the command load stnamechange in the IBM Domino console window.
- D. Create a Name Change document in the stconfig.nsf database with a list of old name/new name pairs.

Correct Answer: A
