**QUESTION 1**

You are performing an SAP S/4HANA conversion for your production system. This conversion requires that certain business functions are switched on. Following SAP recommendations, how will you achieve this?

There are 2 correct answers to this question.

Response:

- A. Specify the business functions that need to be switched on during the prepare part of SUM.
- B. Import a transport request from the development system that contains the recording of the activation.
- C. Activate the required business functions manually in the production system.
- D. During conversion, SUM delivers some business functions already activated.

Correct Answer: BD

---

**QUESTION 2**

During the upgrade of your development system, you run into the adjustment of non-dictionary objects handled by transaction SPAU. There you find programs that are shown in status "automatic adjustment (green traffic light)". What will happen with these programs when you continue with your upgrade without performing any other actions inside your SAP system?

- A. SUM continues with the next phase and your modifications are kept as In the start release
- B. SUM continues with the next phase and your modifications are lost
- C. Before continuing with the next phase SUM asks for a modification adjustment transport
- D. SUM refuses to continue unless you have marked a transport request as modification adjustment transport

Correct Answer: A

---
