QUESTION 3

You have determined that an SFP+ has failed on one of your storage controllers.

In this scenario, what do you use to determine which SFP+ should be replaced by NetApp Support?

A. NetApp Active IQ

B. Interoperability Matrix Tool

C. NetApp Documentation Center

D. Hardware Universe

Correct Answer: D Section: (none)

QUESTION 4

Several clients are accessing an ONTAP SnapMirror DP destination volume. Some clients frequently access the newest SnapMirror volume data. Accessing this data is much slower when compared to clients that directly access data on the source. You use the wafl scan status command against the destination.

What is a symptom of the problem in this scenario?

A. blocks used summary update

B. active bitmap rearrangement

C. container block reclamation

D. volume deswizzling

Correct Answer: A Section: (none)

QUESTION 5

You perform a security trace when troubleshooting a data access problem for a user. The results are shown in the exhibit.

```
cluster1::> vserver security trace trace-result show -vserver svm1

Vserver: svm1

Node          Index  Filter Details            Reason
-----------   ----   -----------------------   ------------------------------
cluster1-01   1      Security Style: NTFS and  Access is denied. The
                     NT ACL                    requested permissions are not
                                               granted by the ACE while
                                               opening existing file or
                                               directory. Access is not
                                               granted for: "Read Attributes"

                     Protocol: cifs
                     Volume: -
                     Share: dept
                     Path: /list.xlsx
                     Win-User: LAB\domusr1
                     UNIX-User: pcuser
                     Session-ID: 14249952170953675090
```

What should you do to solve this issue?

A. Grant the user Read Attributes access to the path.

B. Add the user to the BUILTIN\power Users group.

C. Add the user to the BUILTIN\Users group.

D. Grant the user Execute access to the path.

Correct Answer: A Section: (none)
