QUESTION 1

Which of the following statements are true regarding ADOM revisions? (Choose two.)

- A. ADOM revisions can save the current state of all policy packages and objects for an ADOM.
- B. ADOM revisions can significantly increase the size of the configuration backups.
- C. ADOM revisions can create System Checkpoints for the FortiManager configuration.
- D. ADOM revisions can save the current state of the whole ADOM.

Correct Answer: AB

QUESTION 2

An administrator has enabled Service Access on FortiManager. What is the purpose of Service Access on the FortiManager interface?

- A. Allows FortiManager to run real-time debugs on the managed devices.
- B. Allows FortiManager to respond to requests for FortiGuard services from FortiGate devices.
- C. Allows FortiManager to automatically configure a default route.
- D. Allows FortiManager to download IPS packages.

Correct Answer: B

QUESTION 3

View the following exhibit:

The screenshot shows the FortiManager System Settings interface. The left sidebar contains navigation options: Dashboard, All ADOMs (selected), Network, HA, Admin, and Certificates. The main content area is titled 'Create New ADOM' and includes the following fields:

- Name: Training
- Type: FortiGate (with version options 5.4, 5.2, 5.0)
- Devices: + Select Device (with a search box)
- Mode: Normal (selected) or Backup

| Name | IP Address | Platform |
|---------------------------|------------|----------|
| Click to select device... | | |

Which of the following statements are true regarding when ADOM is set as Normal mode on the FortiManager? (Choose two.)

- A. Cannot assign the same ADOM to multiple administrators
- B. Supports FortiManager script feature
- C. FortiManager automatically installs the configuration difference in revisions on the managed FortiGate
- D. Allows making configuration changes for managed devices on FortiManager panes

Correct Answer: CD

QUESTION 4

An administrator wants to delete an address object that is currently referenced in a firewall policy. Which one of the following statements is true?

- A. FortiManager will replace the deleted address object with the all address object in the referenced firewall policy.
- B. FortiManager will disable the status of the referenced firewall policy.
- C. FortiManager will not allow the administrator to delete a referenced address object.
- D. FortiManager will replace the deleted address object with the none address object in the referenced firewall policy.

Correct Answer: D

QUESTION 5

What are the factory default settings on FortiManager? (Choose three.)

- A. Password is fortinet
- B. port1 interface IP address is 192.168.1.99/24
- C. Service Access is enabled on port1
- D. Username is admin
- E. Reports and Event Monitor panes are enabled

Correct Answer: BCD
